

Who are we ?

CarbonCompete is an AI SaaS platform enabling sustainable supply chain resilience, traceability, and insights. We help organizations monitor, optimize, and decarbonize their supply chains with real-time data and advanced analytics, driving actionable insights for sustainability goals.

Carbon GPT

- ✓ Domain Specific AI model
- ✓ Cutting-Edge Technologies
- ✓ User-Friendly Interface
- ✓ Regulatory Adaptation
- ✓ Holistic Solution

Vision

To empower industries with accessible decarbonization tools, driving global efforts toward a net-zero future by promoting transparency and innovation in supply chain management.

Why Us ?

Our unique AI Solution cover Corporate GHG, Life Cycle Assessments, and Financial Emissions. We integrate sustainability tools with real-time data and insights, helping businesses cut emissions, boost efficiency, and enhance resilience.

Where we stand out ?

- ✓ Comprehensive Automated LCA Analysis
- ✓ Rigorous Data Assurance
- ✓ Actionable Insights
- ✓ Tailored Recommendations and solutions
- ✓ Customized Reports
- ✓ Supply Chain Transparency, Resiliency and Traceability
